MEMORANDUM

TO: The Honorable Alan D. Moats (via email & FedEx)
and All Parties (via email)

FROM: Michael K. Rozen, Director of Medical Monitoring

RE: Status Report of the Director
Jack Leach, et al. v. E.I. du Pont de Nemours and Co.,
C-8 PFOA Medical Monitoring Program

DATE: October 11, 2016

On November 20, 2012, the Court appointed Michael K. Rozen, Esq. as Director of Medical Monitoring (the "Director") in the above-referenced matter to oversee the implementation of the Medical Panel Protocols for the Medical Monitoring Program (the "Program"). The Director has previously submitted 46 Status Reports to the Court summarizing the progress and status of planning for implementation of the Medical Panel Protocols, most recently on September 26, 2016.

The Program was launched with a mailing of notice packets to approximately 98,000 potential Class Members in the beginning of September 2014 and Class Members have been registering, making appointments for monitoring and receiving monitoring pursuant to the Medical Panel Protocols. Since September 2014, additional notice packets have been mailed to potential Class Members upon request bringing the total number of mailings to 99,044.

Each week the Director submits to the parties a Weekly Summary Report with detailed Program Statistics. Attached hereto is the Weekly Summary Report for the week ending October 7, 2016, which sets out in detail the current number of Program participants (6,654 Registrations to date) and their demographics, as well as, among other information, the number of scheduled physician monitoring appointments, the number of approved services, and the total amount approved for payment. Also attached is a CPT Code Summary Report setting forth the total services approved for payment by the Director through October 4, 2016, by CPT Code.

ROZEN LAW FIRM, LLP

The Honorable Alan D. Moats and All Parties
October 11, 2016

By agreement of the parties, the Director mails an Affidavit of Settlement Class Membership to all Registrants with insufficient documentation, along with a letter which explains that a completed and notarized Affidavit will be accepted as proof of Class Member status and eligibility to participate fully in the Program. As of October 7, 2016 a total of 5,898 Registrants have been deemed eligible for medical monitoring.

The Director convenes a bi-weekly status call with the parties during which the Director informs the parties of any new developments. The Director has informed the parties that de-identified data from the Program requested by the Panel has been prepared and will be sent to the Panel shortly. The Director has also advised the parties that the Panel has deemed it essential for its further analysis regarding the duration of the Program that it be provided access to data from the C-8 Health Project, currently held by West Virginia University. The parties and the Director agreed that as a result of the Court's January 25, 2013 Order to File C8 Science Panel Data and Establishing Criteria for Future Use of Data, the data could not be accessed without further Court order or consent of the individual participants. The Director, after discussion with and review by the Parties and West Virginia University, last week sent a cover letter and a consent form to each registrant who has participated in the Program requesting his or her consent to release their confidential data to the Medical Director solely for the purpose of allowing the Medical Panel to review de-identified data in order to inform the Panel's recommendations for further medical monitoring under the Program, and we have begun to receive signed consents from registrants. The Director and the Administrator (Garden City Group) will be meeting with the Medical Panel on October 14, 2016 to discuss data issues. The Director will provide a full report of the meeting to the parties and to the Court in the next status report.

The parties continue to work with the Director, his team, and each other in good faith.
